

FLEET SERVICES

SMART FLEET IS THE SMART, MULTI-BRAND SUPPORT SOLUTION FOR YOUR CLIENT'S FLEETS!

INDEPENDENT

The Tyremart franchise is independently owned by franchisees for franchisees.

Because Tyremart is neither owned nor controlled by a tyre manufacturer, all advice and recommendation is based solely upon the client's interests, not on the vested interests of third parties.

MULTI-BRANDED

Tyremart supplies a full range of tyres for applications from passenger to light commercial, SUV and 4x4 vehicles, while selected dealers also offer truck & bus, agricultural and off-the-road solutions.

SMART SAVINGS

Tyremart's independence, coupled with significant purchasing power, enables it to conclude preferential supply arrangements with tyre manufacturers.

Tyremart passes on the resultant preferential pricing to its customers.

It is the Tyremart Smart Fleet philosophy that our fleet clients should never pay more than our "walk-in" customers! To find out more about how Tyremart's Smart Fleet services can directly and measurably benefit your own fleet business.
