TYREMART BUSINESS METHODOLOGY

All Tyremart stores are franchised and operate within the Tyremart business format franchise model.

They are individually owned and are licensed by Tyremart Tyres and Accessories (Pty) Ltd (the "Franchisor") to use Tyremart trademark and systems and to draw upon the Franchisor's and fellow Franchisees' experience, expertise and know-how.

Business format franchising provides for a contractual relationship between Franchisor and Franchisee

- in terms of which the Franchisor maintains an on-going interest in the business of the Franchisee,
- and is obliged to offer defined services and benefits to the Franchisee,
- while the Franchisee is licensed to use the trademarks, systems and know-how of the Franchisor,
- and is required to operate in accordance with the terms of the franchise agreement,
- as well as the operating systems and standards of the Franchisor and the franchise system.
